Enhancements

StudentInformation

Analytics Hub

- The report groups are now collapsed by default.
- In the **Student** category, you can now run the **Student Address History** report for specific students to view all prior validated address changes.

Course Selection Wizard

- The Course Selection Wizard now has a typeahead find feature throughout the application. Instead of clicking  to use the Course Selection Wizard to search, you can now enter at least 2 alphanumeric characters in the **Course** field to display a drop-down list of all applicable courses display. Depending on the screen, inactive courses may not display in the drop-down list. (*ProgressBook StudentInformation Attendance and Calendar Guide, ProgressBook StudentInformation Course History, Class Rank, and Transcripts Guide, ProgressBook StudentInformation Course Requests Guide, ProgressBook StudentInformation Grad Points and Eligibility Guide, ProgressBook StudentInformation Scheduling Guide*)

Edit Student Profile

- The **General** tab **Email** field and **Student Number** field values can now be imported through the **ParentAccess User Import** screen in GradeBook, which allows students to log into ParentAccess using an OAuth account if a district has enabled it. (*ProgressBook StudentInformation Student and Registration Guide, ProgressBook ParentAccess Administration Guide, ProgressBook GradeBook Principal Guide*)

StateReporting

Assessment Import

- The OCBA import now supports valid Next Generation fall block assessment areas for FY18.

Assessment Reporting - Collection (A)

- All Collection (A) verify process errors now let you click the student's name to navigate to the assessment maintenance screen for the relevant record. (*ProgressBook StudentInformation EMIS Guide*)

- (E12284) The following error check messages in the **Verify - Preschool COS (GM)** process have been added or updated according to new EMIS reporting requirements:
 - New Error Check Messages:
 - PS student should have at least one PS COS assessment record.
 - PS student enrolled in Fall and Spring should have two PS COS assessment records, but does not.
 - PS COS assessment record has invalid 'Score Not Reported' value.
 - Removed Error Check Messages:
 - PS student is missing a fall COS assessment record.
 - PS student is missing a spring COS assessment record.
 - Updated Error Check Messages:
 - Non-PS grade level student has a COS assessment record in the current school year.
 - Non-handicapped PS student has a COS assessment record. Record will not be reported to EMIS.

EMIS Subject Codes

- (E12116) For FY19 and forward, the following EMIS Subject Codes have been removed:
 - 350001 - Intro to Education and Training
 - 350011 - Teaching Professions
 - 350201 - Early Childhood Education

Enrollment Alert

- (E12069) When a student is withdrawn from a building during the summer with a **Withdraw to IRN** value of a building in the same district, an enrollment alert record now displays for the student on the home screen of the specified building.
- (E12069) When a student is withdrawn from a building with a **Withdraw to IRN** value of a building in the same district, when you enroll the student through the enrollment alert record, a new FD record is created with the primary calendar of the new building as the **Reporting Calendar**.

Graduate Reporting - Collection (G)

- The **Transfer - Student Graduate Demographic/Attributes** process now includes the **Military Student** field from the **Edit Student Profile** screen **FN-Attributes** tab.
- (E12626) The Period G **Transfer - Student Withdrawal Override (FC)** process now only submits the following valid withdrawal codes due to new reporting requirements: 40, 42, 43, 45, 46, 48, 51, 52, and 81.

Next Generation Assessment Grades 3-8

- The **Next Generation Assessment Grades 3-8** screen now supports the entry of fall block assessment areas for FY18.

Registration Wizard

- (E12069) When you withdraw a student during summer and re-enroll them using the Registration Wizard into a new building at the same district, if you select **Yes** to **Change primary / EMIS attending building**, a new FD record is now created for the selected **Admission Date** and **Attendance Calendar** from the **Complete Registration** tab.

Withdrawal Override Maintenance

- (E12626) When you add or edit a Student Withdrawal Override (FC) record and select a **Reporting Period** of **G**, you can now only select the following **Withdrawal Reasons** due to new reporting requirements: 40, 42, 43, 45, 46, 48, 51, 52, or 81.

Resolved Issues

Student Information

Outstanding Fees

- (D9727) Previously, when you used the **Course Terms** multi-select box to filter the report by a single term, the report incorrectly displayed student fees from more than the selected term. Now, in these circumstances, only fees from the selected term display.

Ad Hoc Reports

- (D13354) Previously, when a district ran ATTUPEMIS after the nightly Attendance Calculator had already run, only students from the district that ran ATTUPEMIS were included when any district within the ITC ran the Process Warnings or Skipped Students Reports, which resulted in most districts receiving no information. Now, in these circumstances, all relevant students within a district are included in the reports correctly.

State Reporting

CTE Industry Credentials

- (D13278) Previously, when you tried to add a new CTE Industry Credential record and entered a date, then pressed TAB, the cursor moved to the **Assessment Area** and the drop-down list expanded, but then the cursor immediately moved back to the **Testing Date** field. Now, in these circumstances, the cursor remains in the **Assessment Area** field correctly.

Student Assessment Extract

- (D12462) Previously, for schools that were deactivated in the current school year but active in the prior school year, when you tried to run the **Student Assessment Extract** in the prior school year with an **Assessment** of **NextGen - Next Generation Assessment** selected, an error occurred. Now, in these circumstances, the extract runs without error.

Student Transfer

- (D12545) Previously, on the **View Pending Students** screen, when you transferred a student individually through the **Pending Building Detail** screen by clicking **Detail**, their

Edit Student Profile screen **FD-Attributes** tab did not automatically create a second record with the student's **Effective Start Date** and the new building's **Reporting Calendar**. Now, in these circumstances, a new FD record is created.
